

Publication write-up on CCA Leadership (SL Challenge)

Title: 2021 Virtual Student Leaders Challenge

The Sec 3 CCA Leaders went through five months of training and planned for the virtual Student Leaders Challenge that took place on 3 November 2021.

This year's Student Leaders Challenge was definitely one to remember for all Student Leaders since it was New Town's very first virtual Student Leaders Challenge, wholly led by the CCA Leaders! During the one hour challenge, many of the CCA Leaders exuded a sense of confidence. It was a truly enjoyable process for us as we took on this journey with like-minded leaders, all of whom possess the heart to serve, learn and grow.

This is what some of our CCA Leaders have to say :

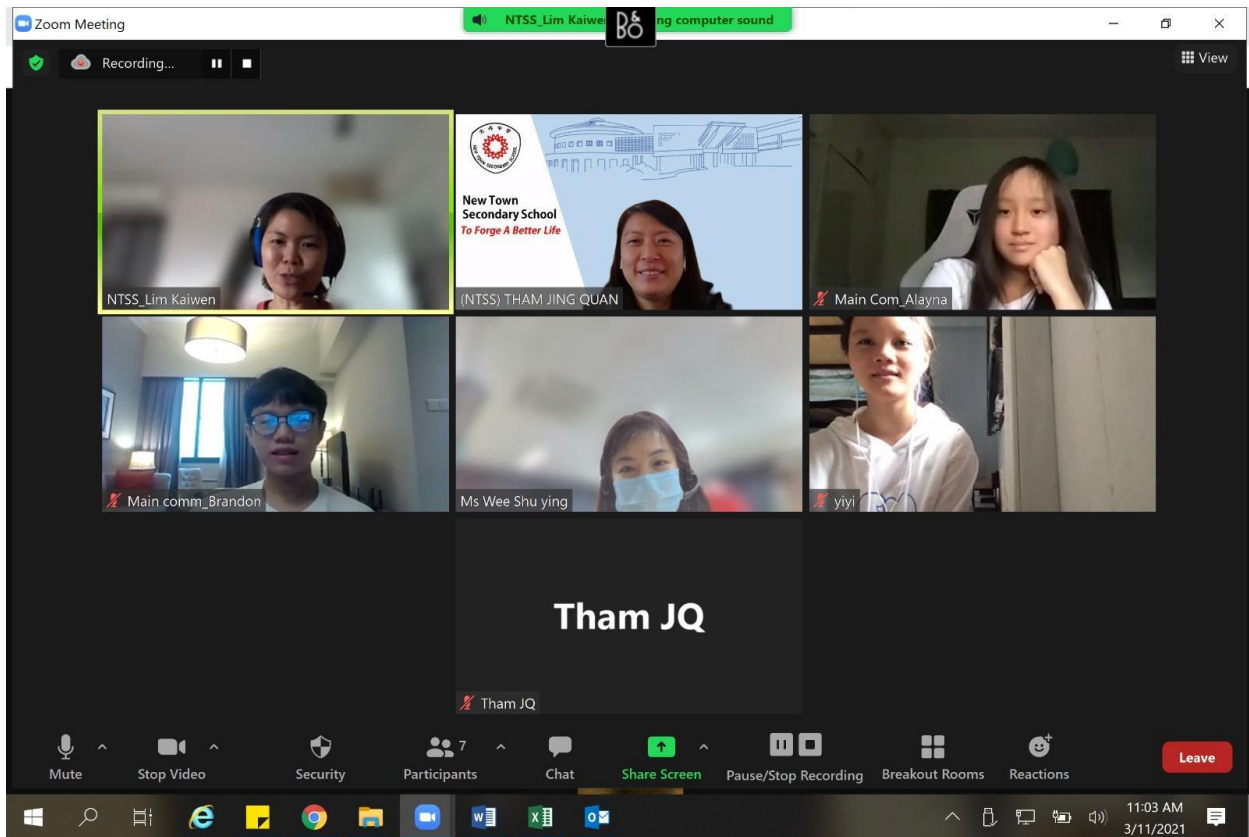

“Being able to organise and facilitate the Student Leaders Challenge was a great opportunity and experience for me. I got a chance to learn how to plan an event and picked up many important values such as resilience. It was a very great experience!”
~Chloe Foo from Guzheng Ensemble

“After undergoing the CCA Leaders Training and Student Leaders Challenge, it truly allowed me to better understand the ethos and structure of leadership. This was further reinforced by the extensive and in depth meetings that honed my leadership skills. In additional, by interacting and planning with my fellow leaders, it acted as a catalyst for me to evaluate and reflect on my own management.” ~Keane from National Cadet Corps (NCC)

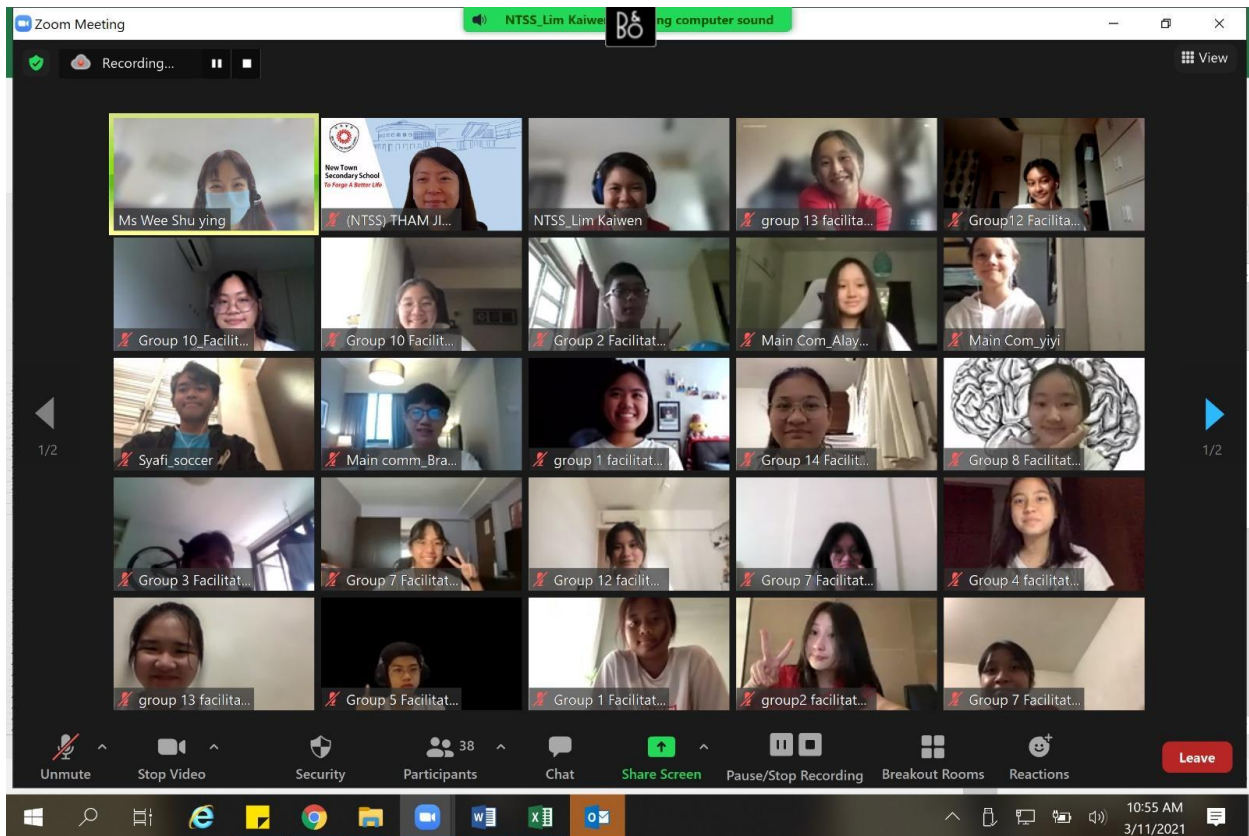

Student Leaders Challenge helped us recognise the importance of teamwork and to show care and concern for our peers. As the organisers, we have definitely benefited from this platform.
